CAPABILITY BROCHURE

# EALING HOSPITAL

London North West University Healthcare NHS Trust

A New Radiotherapy Unit & State-of-the-Art Surgical Facilities.

As part of its commitment to advancing medical excellence, the hospital is introducing a new radiotherapy unit and rolling out its Nuclear Examination Services across multiple specialties.

Design Haus installed enhanced Electrical Systems (lighting, power, UPS and ATS systems), Mechanical Ventilation and Public Health systems.

Project summary:

Service value - £350,000

Contract period - 12 weeks

# KINGSTON HOSPITAL

Kingston and Richmond NHS Foundation Trust

Delivering Essential Services for a New Emergency Healthcare Wing.

As part of a major expansion, we installed the Mechanical, Electrical, and Public Health services for a new two-story, 16-bed emergency wing. The facility includes an outpatient area with consulting rooms, a critical care unit, and state-of-the-art MRI and CT imaging suites.

The project achieved a BREEAM Good rating, reflecting its commitment to sustainability, while seamlessly integrating with the hospital's existing live systems to ensure uninterrupted patient care.

Project summary:

Service value - £750,000

Contract period - 16 weeks

# 52 HARLEY STREET

## HARLEY STREET DENTAL GROUP

MEP & Medical Gas Services for a World-Class Medical Facility.

Design Haus designed and installed Mechanical, Electrical, and Public Health (MEP) services, including medical gases, for a state-of-the-art, five-story medical facility on Harley Street.

The project included treatment rooms, consulting suites, and advanced CT imaging facilities, ensuring a seamless and efficient healthcare environment.

**Project summary:**  
Service value - £450,000  
Contract period - 20 weeks

# 64 HARLEY STREET

## BERKELEY SQUARE MEDICAL

Design Haus delivered the Mechanical, Electrical, and Public Health (MEP) services for two state-of-the-art new-build facilities at Berkeley Medical London.

The project involved heating, ventilation, comfort cooling, chilled water, domestic services, and public health systems.

Additionally, we installed small power, lighting, emergency systems, nurse call systems, CCTV, access control, security, and fire alarm systems, ensuring a fully integrated and efficient healthcare environment.

Project summary:

Service value - £950,000

Contract period - 22 weeks
